

Danish Korean
Bi-Cultural Workshop
and
PEM Fuel Cell Workshop

August 12-14, 2015
Location: Copenhagen
- *Free participation* -

Welcome addresses by
H. E. Ma, Young-sam, Ambassador of the Republic of Korea to Denmark
H. E. Thomas Lehmann, Danish Ambassador to Korea

<http://www.kdfuelcell.net>

*The workshop is supported by a grant from
Innovation Fund Denmark, (KDFuelCell)*

Innovation Fund Denmark
RESEARCH, TECHNOLOGY & GROWTH

The dual workshop

The workshop is a continuation of previous efforts on bringing Korean and Danish scientist closer together. In November 2013 the *Danish Korean PEM Fuel Cell Workshop* was held at KIST in Seoul in the framework of the Danish Korean PEM Fuel Cell Network. 80 people from Korea and Denmark participated in this two day event. In 2014 the non-technical workshop *One project, two cultures* was held in Seoul addressing the cultural differences and modes of practice when collaborating over the distance. The present event is a merge of a non-technical cultural workshop on August 12. and a technical/scientific workshop on August 13-14.

The bi-cultural part

The workshop will review and analyze difference and similarities, challenges and opportunities encountered while working together. Participants from outside the fuel cell community are both welcome and expected at the bi-cultural workshop which could have the subtitle "How do we do?"

The PEM fuel cell part

The Fuel cell workshop will be an opportunity to be updated about the ongoing research and development within PEM fuel cells and electrolyzers in the two countries which both host active communities. It is also meant to establish or strengthen the network between Korean and Danish stakeholders from researchers to end-users.

Tentative program

Wednesday 12. August

Bi-cultural workshop (*non-technical day*)

Location: Asia House, Copenhagen (www.asia-house.dk)

13.00 Welcome and opening.

Evening: Joint dinner

Thursday 13. August

PEM fuel cell workshop (*Technical/scientific day*)

Location: Technical University of Denmark, Lyngby*

9.00 Welcome and opening of the fuel cell workshop

Friday 14. August

PEM fuel cell workshop (*Technical/scientific day*)

Location: Technical University of Denmark, Lyngby*

9.00 Fuel cell workshop continues

15.00 Closing

A detailed program and a list of confirmed speakers will be maintained on the www.kdfuelcell.net.

*Lyngby is just north of Copenhagen

Participation, one, two or three days?

The dual workshop covers all three days, but participation in the bi-cultural part or the fuel cell part alone is also possible.

Accommodation

Accommodation is the responsibility of the individual participant. Suggestions for hotels will be posted on the workshop homepage.
